A PERFECT BAKING POWDER

The great success of the Royal Baking Powder is due to the extreme care exercised by the manufacturers to make it entirely pure; uniform in quality, and of the highest leavening power. All the scientific knowledge, care, and skill attained by a twenty years' practical experience are con tributed toward this end, and no pharmaceutical prepara tion can be dispensed with a greater accuracy, precision, and exactness. Every article used is absolutely pure. A number of chemists are employed to test the strength of each ingredient, so that its exact power and effect in combination with its congredients is definitely known. Nothing is trusted to chance, and no person is employed in the preparation of the materials who is not an expert in his particular branch of the business. As a consequence, the Royal Baking Powder is of the highest grade of ex cellence, always pure, wholesome, and umform in quality Each box is exactly like every other, and will retain its powers and produce the same and the highest leavening effect in any climate, at any time The Government Chem ists, after having analyzen all the principal brands in the market, in their reports placed the Royal Buking Powder at the head of the list for strength, purity, and wholesome ness, and thousands of tests all over the country bave further demonstrated the fact that its qualities are, in every

Removals of Pastmanters

In speaking of the appointments of Presidential postmasters made to-disk Postmaster General Vilsa said that in addition to removals for folknalve partism while there were no invited more again. Postumeter General Vilas and that in ad alltion to removals for offensive pirtisan ship there were as many more cases in which, after consider tiping it had been it clied not to remove postumeters. In these cases, although evidence of offensive partisanship had been protented itawas regarded as insufficient the President in a being disposed to sake the opportunity for removal, but to require the existence of partisanship to be shown as an undeniable fact as showing the split of furness and deliciary that had animated the President in dealing with President in dealing with President in dealing with President in the last days in dealing with resident in proluments in a by President Arthur in the last days of his term, in cases where vicancles had occurred and which had here i confirmed by the Senate, but no compassions had been issued In all these cases as nighter of lagil right, President Cleveland could have made appointments because the act of ap-

high right, President Cleveland could have made appointments because the act of appointment had not been completed by the issuance of commissions. But he thought it only considerate and fair that he should give commissions in completion of the act of appointment and it had been done it all cases but one and in [that case there had been a resignation by the appointment before the commission issued

The Fashions.

[New York Fvenius Post.]

Artistic modistes and milliners have been aking experiments with the new chartrenaking experiments with the new chartreuse and absolute greens, and have discoverin that they instruction very well with
the they harmonize very well with

making experiments with and the missing early and have discovered that they introduce very well with black and with this combination these very trying colors now so fashionable are rendered becoming to a great many more modered becomes the country suits are seen with kilted skirts of golden brown satin-finished with site of the fore, and far the latter it seven as a charming background to distribute the sating of canyons goods of a lighter or a pale uream shade, the canyon being very generally trimmed with wooden lace! There are various invertensive materials dispulsed in the stores which closes goods now in such vogue. These country goods now in such vogue. These country ground points of the country theorem is an about their wearing qualities.

Stripes are very popular again, and some of the cow patterns are exceedingly portry. Plut goods generally accompany these fabrics, and the combination makes very effective gowns—particularly becompating to stour or short-waisted persons being to stour or short-waisted persons being, while sate of the solution of
